Respected Sir,

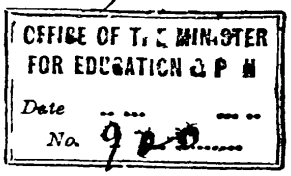
We, the residents of Kurubarally Village, beg to submit that acquisition proceedings are initiated for the removal of the ertire village from where it is Such a thing was attempted during the time of His late Highness of revered memory but His Highness prevented the great mishap that would have befallen us

We are herewith enclosing a copy of the memorial we have submitted to His Highness the Maharaja and, while requesting you to kindly peruse the same, appeal to you to kindly order the suspension of the acquisition proceedings immediately for which act of kindness we will be ever grateful

We beg to remain,

Sir,

Your most obedient servants,



Kurubarahally,

Dated 14-12- 1946

Memo no L 10460 dated 20/1/47

To

His Highness
Sri Jayachamarajendra Wodeyar Bahadur, G.C B.,
G.C.S.I.,
Maharaja of Mysore,
Mysore

May it please Your Highness

The humble memorial of the residents of Kurubarally Village, Mysore City witnesseth --

The Kurubarally Village is a very ancient one and has been within the limits of the Mysore City from the very beginning of the Municipality. There are in all nearly 80 houses. They are not congested by any means and no question of slum clearance arises.

During the time of His Highness the late Maharaja Sir Sri Krishnarajendra Wodeyar Bahadur G.C.S.I , there was an attempt to acquire all the houses of Your Highness' memorialists. But, His late Highness of revered memory learnt of the unnecessary hardship such an acquisition would cause to the poor loyal residents of the village and also of the miraculous service the principal Deity of the village Banimahankalamma had rendered to our Royal Family and with his ever sustaining solicitude was pleased to order that there whould be no such acquisition. On the other hand, he directed the facilities of light and water being given to the villagers. The result was not only that the acquisition was immediately stopped but that the village got light and water conveniences.

Your Highness' humble memorialists beg to submit that there is absolutely no valid reason for the acquisition of the village ~~except perhaps to please one or two landlords~~. When there is no public purpose to be served the law lays down that there should be no acquisition Apart from law, the "Dharma" of the land also

demands that private rights should be protected and not be tampered with except where social public good demands it.

Your Highness' humble memorialists have each of them been served with individual notices under Land Acquisition No.12(2), 31 (1) and 17 Section, showing the award amounts and asking them to vacate the houses shown against their names within 7 days of the receipt of the notices.

Your Highness' humble memorialists beg to submit that apart from the principal temple Bannimahankalamma there are other temples dedicated to Makamma, to Maramma, to Siddappaji and to Laxmidevaru. In all humility it is submitted that the demand for asking the entire village to be vacated, and not merely one or two congested houses, is not only legally and morally wrong but causes intense pain and sorrow to the villagers to leave their time-honoured deities and bodes ill for the authors of the acquisition.

Your Highness' humble memorialists are shown of all places sites in Jalapuri extension to its east near the cow slaughter house. They have been serving the Palace and its various institutions such as Body Guards, Summer Palace, His Highness the Maharaja's Own Infantry, Jillokatchery, Gardens Department etc., loyally all these years. They did not know that this would be the reward for all their hard and loyal service.

Your Highness' humble memorialists submitted that it was unthinkable for them to go to Jalapuri and that if acquisition became indispensable they should be given, apart from reasonable awards, sites nearby their present village, that it, to the East of the Bannimahankalamma Temple, so that they may not forsake and be forsaken by the protecting deities of the village but they do not

know what happened to this request of theirs.

It is well-known how difficult it is to build houses now-a-days with not only the high cost of materials and labour but also the difficulty of obtaining materials. It is very humbly submitted that this is the most inopportune time to raze a whole village to the ground and attempt to have it erected elsewhere. In any case, the memorialists will be hard put to construct new houses with the all too meagre awards of about Rs. 1,000/- a piece.

Your Highness' humble memorialists are keenly aware of the deep and abiding solicitude of Your Highness for Your Highness' subjects, especially the poor and the humble, and are submitting this memorial with the utmost respect and humility.

Your Highness' humble memorialists pray that this their memorial may meet with your Highness' kind and sympathetic consideration and Your Highness may be pleased to direct the suspension of the acquisition proceedings.

In conclusion, Your Highness' humble memorialists pray for the long life, continued happiness and prosperity of Your Highness and all the members of the Royal Family.

We beg to subscribe ourselves,

Your Highness' most dutiful and loyal subjects.

Kurubarahalli,

Dated: -12- 1946.

MYSORE CITY IMPROVEMENT TRUST BOARD.

Subject:- Shifting of Kurubarahalli Village.

The proposal of shifting the above Village first originated on the report of the Health Officer on 3rd September 1945 to the effect that on account of the insanitation and the congestion prevelent in the said Village, it is vulnarable for the breaking out of epidemics frequently thereby endangering the life and health of the residents in the areas situated closeby such as Lalitha Mahal, Mysore Horse and Body Guards. On this a survey of the existing properties in the Village was conducted and a scheme for acquiring the houses and shifting the Village in toto from its present location was worked out and submitted to Government for sanction. The Trust Board have duly approved of the same in their Resolution No.142 dated the 31st October 1945.

The Government have sanctioned the scheme for Rs.70,000/- in G.O.No.L.9848-53/M1.23-45-53 dated the 26th March 1946 firstly for acquisition of properties estimated to cost Rs.37,200/-, secondly for acquisition of 12 acres of land out of Kyatharanahalli for sites at a cost of Rs.3,000/- and thirdly for forming forming/roads and other amenities in the layout at a cost of Rs.29,800/-.

The residents of the Village have subsequently submitted a petition dated the 10th May 1946 at a stage when notices were issued for proceeding with the acquisition of properties They have represented in the petition the difficulties they would be put to by the acquisition of their properties and have prayed for reconsideration by permitting them to continue where they are stating that they would take all action that may be required from the Department to keep the Village in a sanitary condition.

The Dewan was pleased to inspect the spot on 21st December 1946 and on hearing the representations made by the people, issued instructions that the new sites for housing the Villagers after acquiring the existing buildings may be formed close to the present location of the Village by the side of T-Narasipur Road to meet the objection raised by the Villavers to shift to a place far off from the Shrine of their Deity situated about 2 furlongs to the Nort-East of Kurubarahalli.

A separate layout plan was accordingly prepared selecting an area to the South of T-Narasipur Road. This layout was designed to also fit in with the plan prepared by the Consulting Architect Mr.G.H.Krumbiegal in connection with the scheme of shifting Ittigegud. This plan was forwarded to the Private Secretary to the Dewan in this Office D.O.Letter No.B2.C.128/46-47 dated the 12th May 1947 requesting final orders in the matter. A reply has recently been received from the Revenue Secretary to Government in his letter No L.9681 dated the 24th September 1947 to the effect that the original plan of shifting the Village to the Kyathamarahalli Survey Numbers by the side of Mahadevapur Road may be adhered to adding, however, that the new quarters proposed to be constructed should be put up as early as possible. The concessions contemplated to be allowed to the owners of the properties proposed to be acquired in this connection are that they may be given sites free of cost as also materials released from the existing buildings to be dismantled. The scheme prepared for Rs.70,000/- does not envisage any help in constructing the houses also in. ich Sale further grants towards construction will have to be allotted by Government.

The Minister for Finance and Industries was also pleased to inspect the Village and hear the representations of the Villagers on 23th November 1947 when he desired that a detailed chronological note may be submitted for taking a final decision in the matter. Accordingly the present note is submitted for favour of information

It may also be mentioned that the work of forming roads, construction of storm water drains, sinking of wells for water supply for the layout as originally proposed in Kyathamarahalli survey numbers by the side of Mahadevapur Road has been practically completed and the outlay incurred thereon is about Rs.18,208-0-0.

Sir,

with reference to the correspondence ending with letter NV B2 c 128/45 dt 1/3/48, on the above subject I am directed to state that the Govt are not in favour of ~~the proposal to~~ demolishing houses especially at a time when it is so difficult and costly to build them. The better plan is to create facilities for the Kurumbamakally people to go to the new layout planned by Mr Krumbiegel to the south of the C.I.T Narakkal Road. If sites are given to them,- those who need them - then the rest may follow

and the congestion, if any

Deferred Subject No 391

Office note dated 8-3-48 re the shifting of Kurubarahalli Village to the new layout in S No 3, 4/1, 4/2, 4/3 and 34/1 of Kyatha-nahalli Village, if proposal of wholesale acquisition of shifting Kurubarahalli Village are not viewed favourably the new sites now formed in Kyathanahalli Survey numbers may be advantageously disposed of otherwise to collect the demand for sites and the remaining amount of Rs 48,000/- or a part thereof utilised for improving the present conditions of the Village by improving the roads, drains and the general conditions and its sanitation and Revenue Secretary's letter No 17524 dated 12-6-48 on the subject (Deferred pending preparation of the Block Plan of the present Village of Kurubarahalli and further spot inspection) (Deferred pending receipt of the Block Plan ~~nf~~ asked for) Further deferred for inspection and consideration at a Special Meeting of the Board

"Perused the Revenue Secretary's letter The spot was also inspected by the Board this morning The sites that have been formed out of these survey numbers have been specially formed at the request of the Villagers of Kurubarahalli considering the vicinity of the newly formed sites and the present Village as also the excellent situation of the place selected A heavy amount has also been spent for the formation of sites, construction of culverts etc The Board considers that Kurubarahalli Village should be shifted to this area at the earliest opportunity This could easily be given effect to if the following policy should be adopted -

1) That before dismantling the existing houses the sites in the new layout near Kyatha nahalli should be allotted to those that are to be displaced

2) Sufficient time to build up houses in the new sites should be given before they should be compelled to vacate

3) If people should require materials of the old house they may be permitted to the respective house owners so as to make use of the same for the new houses to be put up

On these lines a detailed note might be prepared regarding the number of houses to be shifted, amounts and the number of sites required in the new layout to be given in exchange and brought up before the next meeting

Sir,

With reference to the correspondence ending with your letter No B2 C 128/45-46 & 5-1-49, re shifting of the Kumbatahalli village, I am directed to state as follows:-

That Government cannot meet it would cause a great deal of heart-burn to the villagers if they are removed the villages from their sheets by acquiring and demolishing their houses at the place, as they are too poor to put up buildings in the new area. The better course is to give them a new layout near their village and ask them to build in those sites. A scheme formulated on these lines may be worked to be self-supporting.

Regarding the layout already formed, the sites may be sold in public
